Terms and conditions for entry

XV. EMU 6-Day Race

GOMU 6-Day World Championship

6-Day Hungarian National Championship (subject to approval by National Athletics Federation (MASZ))

Preliminary:

We have established our entry terms mostly considering the following essential criteria:
The length of our track also the number of accommodations unfortunately limits the number of participants.
We will define a maximum number of participants and supporters if needed.
The most important thing for the organizers is to maintain the health of all participants, to provide a safe race and accommodation environment to the highest possible extent.

Details:

For us, it continues to be the most important; that we do all that we can for the sake of the health and safety of our competitors (and their helpers, who are essentially the organizers). At the same time, we also strive to provide a high level of comfort in terms of racing, accommodation and dining conditions.

Aligned with the above, we are setting up a minimum age of 21 as the condition of entry. However there is no upper age limit. A further prerequisite for participation is the necessary stamina for a 6 day race, an ability to certify sports history and of course an up-to-date sports medical certificate is required for the entry, uploaded on our website by 3 weeks before the start date of the race. Without this no entry and participation is valid. A sample certificate is available on the website, alternatively a medical certificate for a competitor's licence issued by a local WA affiliate will be accepted. No one can participate in the race without a valid medical certificate.

The prerequisite for entry is the acceptance of the Entry Terms, the Race Announcement and the Rules of the Event.

Registration for the race happens through our website. After your application for the race you get an email about your application confirming successful data submission. Shortly after

that you shall receive a follow -up email confirming the acceptance of your application. You will appear on the start list only when completing the first (partial or full) payment of the entry fee. Upon uploading your medical certificate and full payment of the entry fee your application will be finalized. Your name on the start list at our website will become green at that point.

Athletes who:

- undermine the homely and friendly atmosphere of the race with their behavior,
- do not behave as it could be expected towards other athletes or the race organizers,
- deliberately breach the safety rules or the requests of the race organizers,
- continuously put themselves before others, making the organizers' work harder,

can be banned from the current and also from any other EMU race, depending on the severity of their misdemeanor.

Following the acceptance of the entry, participants should transfer the entry fee through bank transfer based on the Entry Fee Table.

The date of entry (and thus the payment category) is determined not by the completion of the form, but by the date of payment of the entry fee.

Entry is activated upon the payment of the entry fee. Bank fees due concerning transfer or return of entry fee are entirely charged to the runner.

In case of cancellation of an entry already accepted and paid for, refund is only possible after the race has taken place, as per the Entry Fee Table.

We kindly ask you to consider the entry intentions of others, too. Participants should comply with the entry fee payment deadlines according to the Entry Fee Table. In case the entrant does not meet the payment deadline, we can remove the entrant from the list of entries.

<u>We'd like to emphasize the following:</u>

With the above rules our intentions cooperate, serving the best interest of all of our sympathizers, entrants, helpers, runners and organizing members. This is also because our certified racing track has a limited capacity to hold runners, just as limited are the accommodation options directly along the course to provide you with the highest level of racing/relaxation comfort.
